

Announcing: **VISIONS OF GREYHAWK**

VISIONS OF GREYHAWK is a new e-zine being made by and for World of Greyhawk enthusiasts. It will be hosted on Canonfire.com. As that website has done for the hobby for over two decades, this e-zine will present mini-modules, lore articles, reviews, new monsters and magic, and more, regardless of the version of the rules employed.

We encourage people who previously submitted their creations to Canonfire to support this e-zine instead. Come join us in exploring the World of Greyhawk and share your ***vision*** of one of the oldest and most storied campaign settings published for tabletop role-playing games. We were exhorted thirty years ago to create new legends, fight new battles, and sing new songs. It is our world!

All eras. All editions. All Greyhawk!
